

When Adsoka engages in pro bono or at cost work we maintain the highest expectations—no different than any client work. Adsoka wants to make an impact and work with organizations that appreciate collaboration, creativity and marketing.

The Creative Contributions program criteria are as follows:

1. To be part of the Creative Contributions program, your organization must be a nonprofit.
2. Primary giving areas include the arts and social service organizations. Adsoka generally donates in these areas but will consider other opportunities.
3. Scope of giving: Adsoka is a marketing agency with a fully-integrated set of services. We choose opportunities that engage with all our services rather than a single element. We are valued for our consultative expertise, creativity and excellence in implementation.
4. Compensation agreement: Our time and talent are valuable and ultimately must be compensated through a variety of means, financial or other.

If your organization is interested in requesting work under the Creative Contributions program, please send an email to info@adsoka.com with the following information:

1. A brief overview of your organization.
2. The need as you see it at this time.
3. Why Adsoka, Inc. and the Creative Contributions program makes sense for your organization.

Upon review of this application, Adsoka will notify you with next steps (if applicable).

Being responsible and giving of our time, talent and money is a significant part of Adsoka's history and future. We look forward to hearing from you and discussing how we may be able to help.
